PEOPLE

Part 1

Read the article below.

A Big Break

Have you ever had a setback turn into a big break? That's what happened to Fred R. Conrad. Conrad is a photographer. One day, he had several work assignments. First, he had to take a portrait of a chef in Manhattan. And portraits require a lot of heavy equipment. Then he had to travel to Brooklyn to photograph a diner. Both places are in New York, so he got around by taking the subway. That's when he had some bad luck. The train he boarded didn't go to Brooklyn. He got as far as the tip of Manhattan before he realized his mistake. Then he had to go back to get on another train while lugging all of his heavy photographic equipment. As he sat in the

station waiting for the correct train, now late and frustrated, he saw a wonderful sight.

Across the platform from him, waiting for a train going in the other direction, sat a man completely surrounded by balloons. Conrad couldn't even see the man, only dozens of brightly colored balloons. Fortunately, he had everything he needed to take a great photo. So he did. The photo was so good that it was published in the *New York Times* the very next day. Then the *Times* covered the story of the picture. It turned out to be the best thing that ever happened to him. Of course, making the decision to take the picture had its downside—Conrad missed his train!

Mark the statements T (true) or F (false).

- _____ 1. Conrad is a chef.
- _____ 2. You need more equipment to make a photographic portrait than you do for other kinds of photos.
- _____ 3. Conrad had to travel from Brooklyn to Manhattan.
- _____ 4. He ended up on the wrong subway.
- _____ 5. He had to go back to another station.
- _____ 6. He saw a man delivering dozens of flowers.
- _____ 7. The picture he took was published in the *Washington Post*.
- _____ 8. He missed the train he was supposed to take.

PAIR WORK Discuss the questions.

1. Do stories like this one often get in the news? Why or why not?
2. Do you think people make their own luck?

Have you ever been in the right place at the right time? What happened?

Part 2

B: So the woman was a _____ (5) to everything? That's amazing.

A: She's the one who _____ (6) everything to the newspaper. She's almost as famous as the man after what happened.

Lesson 2: Reading & Writing

Part 1

Read the article below.

The Bystander Effect

Did you ever hear the story of Kitty Genovese? It became famous overnight. She was a young woman who lived in a big city—New York City. One night she was attacked. According to the story, 38 people heard her screaming, but no one responded and no one reported it to the police.

This terrible incident led psychologists to study the "bystander effect." Bystanders witness events, but they are not involved. They stand by while something happens. So why don't people help? Psychologists wanted to learn more about why people decide to help or why they just watch and do nothing. They have learned that there are a number of factors determining whether we will help or not.

First, is it an emergency? People are more likely to react in a helpful way when the situation is life threatening. Second, how many people are around? The more people there are, the less responsibility each person has. If a bystander is alone, he or she is more likely to help than if something happens in a crowded place. Third, where does it happen? People are less likely to help in cities and more likely to help in small towns where people probably know each other. And finally, a related factor: how connected or similar are the people involved? If witnesses feel that the person in danger is somehow like them, they are much more likely to take action.

Complete the sentences with words from the article.

1. Kitty Genovese was attacked in _____.
2. _____ people heard the attack.
3. Bystanders are people who _____ events but are not involved.
4. People are more likely to help when the situation is _____.
5. The more people who witness an incident, the less _____ each person has to do something.
6. Bystanders are more likely to help in _____ than in _____.
7. If a witness is similar to a person in trouble, then he or she is more likely to _____.

PAIR WORK Discuss the questions.

1. What incidents do you know about where bystanders did not help?
2. What do you think are the most important reasons why people do not help?
3. What most influences you to take action to help someone else?

Part 2

Think about an event in the news or in your personal experience when someone did or did not get needed help. Write a description of what happened.

Part 3

Exchange your descriptions with a classmate. What parts of the story agree with the research? Was anything surprising?

PEOPLE

Part 1

Read the blog below.

Pete's Pet Peeves

Service these days

It seems that our economy is becoming one that is more information and service based. If that is the case, we should really be emphasizing good service when we train employees. Here are my suggestions:

- 1. Remember the customer.** I can't stand it when I am in a store or a restaurant and the clerk or server ignores me. I can understand if the place is very busy, but if there are only a few customers, our needs come first. Save your conversations with co-workers until your break.
- 2. Be courteous.** Another thing that gets on my nerves is poor etiquette. A customer service representative should not be eating, drinking, or chewing gum when talking to me. He or she should greet me respectfully, and thank me for my business. Some service professionals think it is okay to be rude.
- 3. Know your stuff.** Even if you work in a coffee shop, you need to be informed. You should know what the business sells, whether it is coffee beans, sushi, cars, or shoes. It bugs me when I ask a server what is in a particular dish on the menu and he or she has no idea. I am not being arrogant when I tell you that I can tell the difference between Brazilian coffee and Kenyan coffee. Please do me the courtesy of answering my questions.

Write the number of the suggestion after each detail.

- | | |
|--|-----------------------------------|
| 1. the difference between coffee beans _____ | 5. say thank you _____ |
| 2. chewing gum _____ | 6. the customer comes first _____ |
| 3. be informed _____ | 7. answer questions _____ |
| 4. conversations with co-workers _____ | 8. poor etiquette _____ |

PAIR WORK DISCUSS THE QUESTIONS.

1. Which suggestion do you think is the most important? Why?
2. What can you tell about the writer from his suggestions?
3. What kind of problems have you had with people in the service industry? How do you think the problems can be avoided?

Part 2

Write about one of your pet peeves with service people. Give suggestions.

Part 3

B: That might work. I'll give it a try.

Part 1

Read the letters below.

Is this friendship toxic?

Dear Smartypants,

I have just about had it with one of my friends; let's call her Queen Bee. I have known Bee since we were little girls. When we got to high school, she began to change. She became very popular because she is pretty and outgoing. However, I am not as successful socially. I feel awkward in large groups of people. Because of this, Bee doesn't hang out with me as much as she used to. She spends most of her time with the other cool kids. She used to be really nice, but now she is unkind to the less popular kids, and that sometimes includes me. I'd like to talk to her about our friendship, but I don't want to be pushy. I'm starting to resent her.

Discouraged

Dear Discouraged,

Friendships can change over time. It is not uncommon for people to find new social circles when they move on to high school or college, or even when they are out in the professional world. For friendships to last, the people involved must work at it. You say you don't want to be pushy, but have you tried confronting Bee? You don't have to be angry or unkind, just tell her how you feel. Her reaction can show you a lot about what kind of friend she is. If she takes your concerns seriously and makes more of an effort, she may be a friend to keep. However, you don't have to put up with Bee just because you were friends long ago. If she reacts negatively, you might want to consider finding some better friends.

Smartypants

Answer the questions.

1. Who is Discouraged having a problem with? _____
2. How long have they known each other? _____
3. Why is Bee popular? _____
4. Who does Bee spend time with? _____
5. How has Bee changed? _____
6. What does Smartypants suggest? _____
7. What should Discouraged do if Bee reacts negatively? _____

PAIR WORK Discuss the questions.

1. Do you think the writer describes a common problem? Why or why not?
2. Which girl would you rather be friends with? Why?
3. Have you ever had a similar problem with a friend? What happened?

Part 2

Write a letter about a problem you have had with a friend. Ask for suggestions.

Part 3

Exchange letters with a classmate. Write a response and make suggestions.

Kate: I'm sure you'll figure it out.

Maria: Yeah. I hope so. So, did you live with

Maria: Oh? In what way?

Maria: Oh, no! I can't stand messy people. Did you

Maria: Okay, so Tom, _____

Tom: What happened?

Maria: Well I just got home, and Kate's not here,

her about it when she gets home.

Maria: I don't know... Do you _____⁽¹³⁾
I mean, she just moved in. I'm not sure how she'd
_____⁽¹⁴⁾ ... it could be pretty _____⁽¹⁵⁾

Present perfect

The present perfect is used with actions that happened sometime before now, at an unspecified time. The exact time when the action happened is not important.

I **have been** to Spain.

Jake **has heard** that story before.

Marta **has had** a tough time recently.

To make questions with the present perfect, we change the order of the subject and verb. Questions do not refer to a specific completed time.

Statement: You **have spoken** to her about the problem.

Question: **Have you spoken** to her about the problem?

Have you spoken to her **since** yesterday?

Since shows that the time is still ongoing (not complete).

The present perfect is also used to describe or ask about experiences. The experiences described are not specific in time.

You **have told** me this story before. (at some time in the past)

Part 1

Complete the sentences with the present perfect form of the verbs in parentheses.

- Greta isn't happy. In fact, she has complained to the manager a few times. (complain)
- A: Bernard has a new job. B: Yes, he _____ some big changes recently. (make)
- A: Do you speak Spanish? B: Yes. In fact, I _____ Spanish lessons. (take)
- A: Your friend keeps asking me for money! B: I _____ telling her to stop. (try)
- A: Where's Jamie? B: We don't know. We _____ him since yesterday. (not/see)
- I don't know that story. I _____ it before. (hear/never)

Part 2

Use the prompts to make present perfect questions.

- you / make a decision / about your roommate Have you made a decision about your roommate ?
- Rachel / consider / texting her friend _____ ?
- James / speak / to the manager _____ ?
- Alisha / find / a new place to live _____ ?
- you / confront / your neighbors yet _____ ?
- you / try / telling Ana about the problem _____ ?

Adjective clauses

Adjective clauses are used to describe nouns. A non-defining adjective clause gives extra, not essential, information about a noun. It is separated from the main clause with commas.

Joe, **who is usually very quiet**, yelled at his neighbors yesterday.

Dani, **who normally loves to hang out with us**, canceled at the last minute.

Josh, **who is so shy**, decided he wanted to be on a reality TV show.

A defining adjective clause gives essential information about a noun. It is necessary to understand the sentence. A defining adjective clause is NOT separated from the main clause with commas.

The server **who ignored us** doesn't work here anymore.

The man **who fell onto a subway track** is going to be fine.

The neighbor **who I confronted** apologized.

Part 1

Write ND if the adjective clause is non-defining. Write D if the adjective clause is defining. Add commas if the sentence contains a non-defining adjective clause.

1. D The woman who fainted on the sidewalk is OK.
2. _____ Jamie who has been single for years just got married.
3. _____ The guy who is sitting behind me is kicking my chair.
4. _____ The kids who are in the front row are making a lot of noise
5. _____ Adam who has been out of work for weeks just got a new job.
6. _____ My best friend who lives in Oakland found a diamond ring in her backyard!

Part 2

Use the words in parentheses to complete the sentences with a non-defining adjective clause or a defining adjective clause. Remember to use commas with non-defining clauses.

1. The guy who is always late is coming with us. (He is always late.)
2. Claire _____ told us not to be late! (She is never on time.)
3. Alex _____ wants to hang out with us tonight. (He never has anything to do.)
4. The woman _____ disappeared. (She witnessed the accident.)
5. People _____ get on my nerves! (They talk during a movie.)
6. Emma _____ texted her friend during the movie. (She is usually very polite.)

B: Um, I doubt it. I just moved here. Emma and I are just (acquaintances / old friends). We met last week and she said this party would be a good way to meet new people. I'm Nancy, by the way.

B: A/an (ex- / former) neighbor, huh? Do you know most of the people here, then?

A: Yeah. Let's see. That guy in the pink shirt over there is Emma's (prospective / future) brother-in-law.

B: Oh. So she's getting married?

A: No, her sister's getting married next month—to Emma's (exercise buddy / old employer). Emma and her sister were at the gym, and that's how Marv and Shelly met.

Lesson 5: Reading & Writing

SOCIALIZING

Part 1

Read the movie review below.

The Hunger Games

The Hunger Games was a best-selling series of books, and it's been turned into a best-selling series of movies as well. The first movie follows the first book very closely. Katniss lives in a society much like the United States after a terrible war. The society is made up of districts, each of which is responsible for a certain industry. Her district is devoted to mining and is very poor. To feed her sister and mother, Katniss brings home animals she kills with her old hunting buddy, Gale. Every year, each district sends one boy and one girl to the capital to participate in a competition in which they fight to the death. When Katniss's sister Primrose is selected, Katniss volunteers to take her place. The selected boy is an acquaintance of Katniss named

Peeta. A former champion (Haymitch) from their district trains Katniss and Peeta. Katniss doesn't want to get to know Peeta too well because he is her prospective enemy in the games.

The Hunger Games really starts to take off when Katniss and Peeta get to the capital. There, a team of stylists helps package them so they will attract sponsors who can support them. Once the games begin, the movie is full of action sequences in which Katniss faces danger, and then uses her hunting skills and smarts to stay alive. What movie would be complete without a little romance? At the end of the movie, viewers are left to wonder who might be Katniss's future love interest—Gale or Peeta?

Match the person to the role.

- | | |
|-------------------|---|
| 1. Haymitch _____ | A. former champion, trainer |
| 2. Gale _____ | B. main character, female competitor |
| 3. Peeta _____ | C. sister |
| 4. Primrose _____ | D. hunting buddy |
| 5. Katniss _____ | E. former acquaintance, male competitor |

PAIR WORK DISCUSS THE QUESTIONS.

1. Do you think you would like this movie? Why or why not?
2. Why do you think this movie is very popular?
3. What kind of movies do you like?

Part 2

Part 1

Read the book excerpt below.

First Impressions

"You never have a second chance to make a first impression" is an old saying, and research suggests that it has some truth. The first impression we have of someone or something is very persistent or difficult to change. A recent study indicates that even when we get new information that contradicts our first impression, we are likely to discount it. We tend to think the new information is specific to the situation rather than proof that our first impression was wrong. For example, maybe you meet someone who is not very friendly to you. You think the person is standoffish. Then you see that same person in a different situation and she is bubbly and gregarious. Instead of thinking that you had the wrong impression, you might decide she had just heard some very good news.

How long does it take to make a first impression? It only takes a fraction of a second to form a first impression. In one study, participants who were shown a photograph for only 1/10 of a second, formed the same impression of the pictured person's characteristics as did participants who saw the photo for an unlimited amount of time. In another study, researchers found that participants could accurately judge nine out of ten personality traits if the photo showed a natural pose. These traits included how extroverted, likable, and secure a person was. It turns out that we are able to take in important information in a very short amount of time.

Complete the sentences with information from the text.

1. Our first impressions are often _____ or difficult to change.
2. When we get information that is very different from our first impressions, we usually think it is due to the _____ rather than an incorrect impression.
3. It only takes _____ to form a first impression.
4. In one study, participants could _____ judge most personality traits.
5. People can judge how likable, secure, and _____ others are from a photo.

PAIR WORK Discuss the questions.

2. What characteristics do you think you can accurately judge in someone you first meet?
3. When has someone turned out to be quite different from what you originally thought?

Facebook Addiction

Facebook is the most popular social networking site in the world. There are over a billion users. If it were a country, it would be the third most populous country in the world. Why is it so popular? People use it to keep up with friends and stay informed. They enjoy sharing links and uploading photos. Every day, 77% of users update their statuses. A quarter of users post comments on their friends' walls, and 22% comment on photos every day.

What used to be a way to check in with friends has become an addiction for some users. British researchers found that a lot of people get very anxious because of their Facebook use. The key factor is being able to find balance. If you just don't get why people like Facebook so much, you may have a very healthy attitude. If you think you might be an addict, answer the questions below. A lot of yes answers may indicate a problem.

1. Do you think about Facebook a lot?
2. Do you use Facebook to forget about personal problems?
3. Have you tried unsuccessfully to decrease the time you spend on Facebook?
4. Do you feel anxious if you can't use Facebook?
5. Do you use it so much that it has a negative effect on work or school?

- _____ 2. Most people comment on other people's posts daily.
- _____ 3. Almost a quarter of users comment on photos every day.
- _____ 4. Facebook users have more anxiety than non-users.

Non-defining adjective clauses:

The movie, **which was really funny**, was the best part of the evening.

Note: Always use *who* with people and *which* with things in non-defining adjective clauses.

Whose shows possession in non-defining adjective clauses.

Defining adjective clauses:

The neighbor **who always has barbecues** stopped by.

The movie **that had the robots** was cool.

The woman **who always wants to talk about her kids** is over there.

Dear Reader,

When I first became a _____⁽¹⁾, I found it very hard to go out to eat with friends. All my friends eat meat. Even though I ate eggs and dairy products, there weren't many choices on the menu. Luckily, things have changed. People have become more aware of the impact of a _____⁽²⁾ diet on our health. While a lot of people haven't changed, my friends are eating less _____⁽³⁾ and even less _____⁽⁴⁾. Maybe I've been a good influence on them.

One thing that has helped me find more choices on the menu, is the move toward more _____⁽⁵⁾ food, food with no or few chemicals. Another thing that has helped is the growing movement toward _____⁽⁶⁾ food. Of course, you can have meat, chicken, and fish that are raised nearby, but more often than not, _____⁽⁷⁾ are eating the fruits and vegetables that nearby farmers are growing. As that trend has continued, some restaurants have realized they can offer local foods and attract new customers that they might not otherwise have. Enjoy our special edition on eating out without giving up your food values!

Lesson 9: Reading & Writing

Part 1

Read the travel and food blog.

Brazil: Moqueca and Other Regional Specialties

Brazilians like their food. You can find good restaurants and interesting dishes everywhere. Many restaurants are buffet style so you can get plenty to eat. Brazil is home to many fruits and vegetables, some of which are unique to that area of the world. Brazilians drink a lot of nutritious beverages made from fruit, so you will probably be offered some for breakfast or with meals. They also make sweets from fruits like guava and passion fruit. Custard desserts such as quindim, made with eggs, sugar, and ground coconut are also popular.

Each region has its own specialties, or variations on a typical dish. Ingredients can then be locally sourced. For example, moqueca, a kind of fish stew, varies from one region to another but is primarily found in the northeast. In some places, they add shrimp or manioc.

Although 5-10% of Brazilians are vegetarian, it can be hard to avoid meat in some restaurants. The national dish, feijoada, features black beans, but is also flavored with pork or beef and sausage. When in doubt, ask about ingredients. Organic food is not yet widely available, in part because it costs more than conventional food.

As a frequent traveler and food writer, I always encourage others to try the local food. A trip to Brazil just isn't complete without sampling moqueca, feijoada, pão de queijo (cheese rolls), coxinha (chicken croquettes), and yummy brigadeiros (like a chocolate truffle).

Match the food to the description.

- | | |
|------------------------|-----------------------|
| 1. moqueca _____ | A. chocolate dessert |
| 2. guava _____ | B. fruit |
| 3. feijoada _____ | C. cheese roll |
| 4. brigadeiro _____ | D. fish stew |
| 5. pão de queijo _____ | E. bean and meat dish |

PAIR WORK Discuss the questions.

1. Do you think you would like the food in Brazil? Why or why not?

3. What foods are typical in your country?

Professional Organizers Plus

It's no surprise that professional organizing is one of the fastest growing careers today. As people's lives get increasingly busy and complicated, they often need help organizing.

Some of the things we do:

- Help before and after a move. Professional movers can pack up your stuff and move it, but we can help you decide what to keep, what to donate, and what to pack. We can also help you unpack and get set up in your new space.
- Declutter pantries, closets, garages, and attics.
- Set up and maintain home offices. First, we can help you create a space that will serve your needs. Then we'll give you strategies to keep it neat and free of clutter.
- Create a workable plan. Sometimes, people can organize their physical space but have more difficulty with maintaining schedules and implementing plans. We help you stop procrastinating and stick with a schedule that you can actually follow.

Who we are:

- Abby is a former librarian. She excels at creating organizational systems for hard-copy and electronic files. Member of the National Association of Professional Organizers.
- Tom is a retired attorney. His expertise is in helping families deal with paperwork after a family member has died. NAPO member.
- Rosa has four grown children, and knows all there is to know about keeping a family organized. Her strengths lie in tidying up and throwing out unnecessary junk. NAPO member.

English Learners Tips Exchange

How can I use the Internet to improve my English?

What a great question! There are actually many things you can do. For example, many people write blogs about English Language Learning. Just search for "blog" and "ELL" or "ESL" or "EFL" and you will probably find a number of sites. -*Manuel*

I agree with Manuel. There are a lot of blogs out there. However, I have found that video sharing sites can be really helpful. Some videos are actual lectures on a particular language topic. For example, you could search for videos on the simple past and I'm sure you would find a lesson. Also, you can search for a video on a topic that interests you in English. -*Reiko*

In addition to finding videos that people have uploaded to video sharing sites, you can often find live streams of lectures. Colleges and universities are a good source of live streams on interesting topics. You can also find podcasts on all kinds of subjects. Podcasts can really help your listening comprehension. -*Katia*

I like using phone apps. Then I can improve my English anywhere. You can find interesting apps by going to the app store. -*Aziz*

Obviously, discussion boards like this one or social networking sites can be a good place to practice informal English. You can see how speakers of English actually use the language. Only one problem—I spend way too much time on the computer! -*Juliana*

Match the speaker to the recommendation.

PAIR WORK Discuss the questions.

1. Do you agree with the suggestions above? Why or why not?

Choose one of the online activities mentioned in the text above. Write a paragraph about how you use it and why.

Part 3

Reykjavik, Iceland.

This tiny city only has 115,000 people, but it is doing impressive things regarding the environment. It already gets all of its energy for heat, hot water, and electricity from renewable resources. These produce no greenhouse gases. Some vehicles even run on hydrogen, including three city buses. One planned community, Masdar, will have a zero carbon footprint.

Copenhagen, Denmark.

Copenhagen is one of the greenest cities in Europe. Its citizens take public transportation or ride bicycles to get to and from work. They are also known for their clean waterways and windmills. Windmills produce about 10% of Denmark's electricity.

Curitiba, Brazil.

Curitiba has increased its parks and urban forests fifty-fold in the last 30 years by planting trees and creating lakes. They save energy by using sheep to trim the grass in the parks. In 1991, they began a program to get people to recycle waste and so earn bus tickets and food. Seventy percent of waste is now recycled.

Vancouver, Canada.

Vancouver leads the world in hydroelectric energy. Hydroelectric energy is the use of water to produce electricity. Ninety percent of the city is powered with this form of energy. They also use new technology to solve old problems. For example, they have solar powered trash compactors that can handle five times as much trash.

Write the name to complete the description.

- _____ leads the world in hydroelectric energy.
- _____ has windmills that produce about ten percent of its energy.
- _____ gets all of its energy from renewable sources.
- _____ has solar powered trash compactors.

Quantifiers

Uncountable nouns use much. Countable nouns use many. We often use a lot of in place of much or many. Using too before much or many shows a negative view of the amount.

Negative: Sara spends **too much** time on Facebook. (She should be studying instead.)

Positive: Jared spends **a lot of** time on Facebook. (He works for Facebook.)

Negative: Ellen buys **too many** books. (She buys them and doesn't read them.)

Positive: Zach buys **a lot of** books. (Reading is his hobby.)

When using **a lot of**, we DON'T use **too**.

Sara spends **too a lot of** time on Facebook.

Uncountable nouns use little. Countable nouns use few. Using too before few or little shows a negative view of the amount. Using a before few or little shows a positive view of the amount.

Negative: David spends **too little** time studying. (He's not a good student.)

Positive: Marta spends **a little** time studying. (She's a good student.)

Negative: Mike spent **too few** hours organizing his desk. (He's messy.)

If Megan **cleaned** her room more often, she **wouldn't lose** things.

When using *be* with *I, he, she, and it*: *was* → *is* common in speaking, *were* → *is* common in writing

The second conditional is often used with *would* to give advice: *If I were you, I would* . . .

If I **were** you, I **would not eat** that.

Finding Your Dream Job

A generation or two ago, people entered a job and stayed in it their whole career. If all went well, they were promoted a few times, increasing their salaries and their retirement funds. But that way of life may have disappeared. Now people are likely to change jobs or fields at least several times over the course of their working lives. Workers nowadays may have to find more than one dream job. If you are exploring your first or your fifth career path, keep these tips in mind.

- 1. Assess your skills and interests.** It is worth your time to find out what you are good at and what you are interested in. Are you bilingual? Do you like working with people or alone? Would you rather have a lot of variety or a position with clear expectations? It doesn't
- 2. Set long-term goals.** Once you have identified a job or jobs you think you'd like, you can set some long-term goals (e.g., In five years, I would like to have my own website design business).
- 3. Set short-term goals.** When you know your long-term goal, you can start planning specific steps and strategies that will help you get there. For example, if you want to have your own website design business, what will help you achieve that goal? Do you need to take classes in website design? Can you find an entry-level job working for someone else in the field? What kind of investment will you need and how can you get it?

Circle the correct word or phrase to complete the sentence.

- Most people in today's workforce will *change careers* / *stay in the same job*.
- First, you should *ignore* / *evaluate* your skills and interests.
- Being bilingual is a *skill* / *position*.
- An example of a *short-term* / *long-term* goal is taking a class in your area of interest.
- According to the article, you should really set long-term goals *before* / *after* short-term goals.

PAIR WORK Discuss the questions.

- Do you agree with the writer's advice? Why or why not?
- What other advice can you give about finding a dream job?
- What is your dream job? Why?

Part 2

CAREERS

Part 1

Read the two evaluations below.

Tina Martin

Ms. Martin is an excellent office assistant. She is always on time in the morning and never leaves until her work is finished at the end of the day. She is very detail-oriented and well organized. However, she is something of a perfectionist, and this can sometimes cause her to spend too much time on each task. Although she is a very hard worker, she does best with clear directions and occasional supervision. Her manner is always professional, and she is polite and friendly to both clients and other employees. She is a good team player.

Carl Castillo

Carl is a very good office assistant. He understands his job well and completes tasks without supervision. He is a self-starter—if he sees a better way of doing something, he does it right away. Carl is better at the big picture than with details. Sometimes he forgets to follow procedures exactly. He is responsible and professional in his approach to his job. He is highly motivated, and wants to learn more about the business and the field. He is taking a class at the community college that has helped him to understand his position better. He has good ideas and is not afraid to bring them up with his supervisor or others in the office. In general, he works well with a group although he is sometimes too passionate about his own ideas.

Check the person or persons the quality describes.

3. What are the strengths and weaknesses of each employee?

Part 2

Write a paragraph about your own strengths and weaknesses as a worker or student.

Part 3

Part 1

Read the hints and put the words into the correct place in the puzzle.

bar code	cash drawer	code	discount
ring up	scan	touchscreen	transaction

Across

- the flat, square part of a cash register; you use your finger to make choices on it
- the place where money is kept in a cash register
- a group of numbers or letters that stands for someone or something

Down

- to pass light over an image to get information

Server/Barista Procedures:

- When you come in for your shift, first enter your employee ID code on the touchscreen.
- Choose the clock-in screen, and follow the instructions to clock in for the shift.
- Ring up each transaction using the electronic register. You may need to re-enter your employee code. Then choose the type of transaction (e.g., *hot drink*). This will take you to a new screen where you can enter the specific order (e.g., *large coffee*).
- If you need to get into the cash drawer between transactions, simply press the "no sale" button.
- If merchandise does not scan properly, you can enter the price by hitting "retail" then "enter price" and then the specific price (e.g., 3.50).
- You need to enter special orders. For example, if the customer orders a large decaf latte with soy milk and hazelnut syrup, you must choose "large latte" and "decaf" and "soy" and "flavor shot—hazelnut".
- Discounts on merchandise are taken automatically when the item is scanned. The electronic reader will read the bar code and the amount is taken off at the end of the order. Other discounts (employee, trivia question, personal cup) can be entered by pressing the discount key and then choosing the correct type of discount.
- The first refill on brewed coffee is free with a personal cup or a store mug (not a paper cup).
- Ask if customer wants a receipt before you press "Done."

You have just arrived to work your shift and a customer immediately places an order for a large cappuccino with an extra shot of espresso. Number the following steps in order. The customer has her own cup.

Getting the Perfect Job

Experts tell us there are some important things we can do to increase our chances of getting a job. Use this checklist and you can't fail. Good luck!

Before the interview

1. Make sure your _____⁽¹⁾ doesn't have any typos or misspelled words. If your documents are sloppy, you probably won't get an interview.
2. You can't send the same letter to each company. _____⁽²⁾ the company so that you can match your experiences to their needs.
3. After the company asks you to come in for an interview, start _____⁽³⁾ the interview with a friend or family member. Think of all the questions they might ask you, and have good answers for each one.

The day of the interview

1. _____⁽⁴⁾. You won't make a good first impression if you don't get there on time.
2. _____⁽⁵⁾. No jeans, tennis shoes, or T-shirts.
3. Maintain _____⁽⁶⁾ as you shake the interviewer's hand. Looking down suggests you lack the confidence to do the job.
4. Don't _____⁽⁷⁾ about your previous company or co-workers. No one wants to work with someone who complains all the time, and the person interviewing you may wonder if you are a team player.
5. _____⁽⁸⁾. The interviewer wants to know you can handle stress on the job. Prove you can!
6. After the interview, don't forget to send a short _____⁽⁹⁾. Emphasize how you can meet the company's needs. Finish by saying you look forward to hearing from them in the near future.

Part 1

Read the website below.

Common Interview Questions

So you've decided on a professional outfit to wear, you've set your alarm clock so you will be punctual, and you've researched the company. What have you forgotten? To rehearse answers to interview questions! Although every position is a little different, many interview questions are fairly similar.

Tell us about your past experience.

Potential employers want to hear what you have done that will help you in this position. Keep your answer focused on skills and experience that will contribute to their company. They're not interested in how well you played soccer in high school.

What personal qualities or strengths will help you in this job?

Most employers value workers who are responsible, work hard, and can work on a team. You should mention strengths that will help you in this specific position, e.g., ability to meet deadlines, attention to detail, problem-solving, or people skills.

What is your greatest weakness?

You should acknowledge a weakness, but also explain how you are overcoming it. For example, you might say you are sometimes so focused on meeting deadlines that you occasionally feel too much stress. One way you are dealing with that is to make a more thorough schedule so you can delegate responsibility or get things done well ahead of time.

Why did you leave your last job?

You want to stay positive in answering this question. It's never held against you if you left your last job because you had to move to a new city. If you didn't like the last job, try to explain in a positive way (e.g., I wanted more responsibility, I needed more challenge).

Complete the sentences.

1. You should look *punctual* / *professional* at your interview.
2. You should *research* / *rehearse* answers to interview questions.
3. Potential employers want to hear about your *skills* / *sports*.
4. If you are applying for a job in education, you should mention your *people skills* / *fashion sense*.
5. When you talk about a weakness, explain *that it's not important* / *how you are working on it*.

PAIR WORK Discuss the questions.

1. Do you think this is good advice? Why or why not?
2. What other questions do you think are frequently asked?
3. Which question is hardest for you?

Part 2

Think of your dream job. Write answers to each of the questions above to prepare for an interview for that job.

Part 3

Ask and answer the questions with a classmate. Do you think he or she has good answers?

Maria: Well to be honest...it's not perfect, but you still have time to work on it, right?

Alex: Oh, good! Can I try again? You're really great at motivating people, Maria.

Maria: No, no, no. I'm not that great at it. And maybe management isn't for me after all.

Alex: Okay, guys, you're not going to believe this. I just got a text from my boss. She said she's decided to give the presentation herself!

Part 1

Read the book excerpt below.

Fear or Phobia

Many people have fears of specific objects or situations. Such fears have helped people survive. A spider bite could be poisonous, for example, or if you fall from a significant height, you could receive terrible injuries or even die. Humans are wired so that something dangerous releases adrenalin. This in turn causes our hearts to beat faster and prepares us to either fight or take flight. So a certain amount of fear makes sense and protects us.

But how is a reasonable fear different from a phobia? A phobia is a strong and irrational fear of an object or a situation that poses little actual danger. For example, a person with a phobia of snakes might become terrified looking at a photo of a snake or even seeing a rope on the floor. A person who has a phobia about public spaces (agoraphobia) may go into a panic at the thought of leaving the house.

Perhaps ten percent of people experience phobias. Phobias can be severely disabling, and should be treated. Professionals treat phobias in a couple of different ways. One method is to expose the person very gradually to the thing that causes them fear. For example, if someone has a fear of public speaking, a therapist might help the person control his or her reactions by first speaking to one supportive person, then to a couple of people and so on.

Complete the sentences with a word or phrase from the reading.

1. A spider bite could be _____.
2. People can get terrible _____ from a fall.
3. Our bodies release _____ when we are afraid.
4. Our hearts beat _____ so we can run away or fight the danger.
5. A _____ is an irrational fear of something that is actually not dangerous.
6. A fear of going out to a public place is called _____.
7. One way to treat a person with such a fear is to expose him or her _____ to the source of the fear.

Stress Relief Forum

Hi. I'm experiencing a lot of stress from both work and school. I'm under a lot of pressure and have too many deadlines. I feel overworked and run-down. Please help! -*Irma*

I think one of the most important things you can do is to slow down and breathe. Meditation can really help as it allows you to clear your mind. When you breathe slowly and mindfully, it helps your body get rid of stress-producing hormones such as cortisol. -*Wei*

I agree with Wei that meditation can be very helpful, but being more active can also help. When I feel stressed and overworked, I make sure to exercise. I always feel better and more relaxed after a hard workout. -*Valeria*

Wei and Valeria have given some good suggestions, but both of them focus on your reaction to stress. You could also try to address the sources of stress. In my experience, talking to your supervisor about your workload can really help. He or she might find someone to help you or figure out a way to get things done in less time. -*Fowzia*

I've found it's really helpful to make a list of everything I have to do. Then I decide which of those things I actually have to do, and which are things that I could give up or get someone else to do. -*Jack*

Check the person(s) who probably has each opinion.

Part 1

Read the opinion piece below.

Encouraging Creativity

Our current system of education is failing. Although test scores show students are mastering a body of knowledge, they do not reveal our main deficiency—students often lack the capacity for truly original thought. Major scientific and cultural achievements do not come from memorizing facts; they come from being able to think creatively. We should be encouraging our young people to create inspiring works of art, to invent robots or spaceships or a better way of producing energy. Our students should be able to discover new medicines or animal species or planets. They should be excited to explore hidden jungles, canyons on the ocean floor, or the outer reaches of space. They need to be able to develop new solutions to old

problems as well as find answers to brand-new problems.

The best way to encourage creative abilities is to provide models of how other people have been successful creatively. Our schools need to encourage students to research the way in which Louis Pasteur discovered penicillin, or how scientists map genes, or what makes the iPod more attractive than mp3 players. If we want to be a country of innovation, we need to raise innovators, inspiring them to identify needs, analyze possibilities, generate new ideas, and develop those ideas to achieve goals. It's not enough to teach about existing math and science and literature, we need to teach students how to think beyond those to the next big thing.

Check the points the writer makes.

- 1. Students often don't think in original ways.
- 2. Test scores don't show everything.
- 3. If you study enough facts, you will be able to create new ideas.
- 4. Part of being creative is problem-solving.
- 5. Students should research the creative process as well as the outcomes.
- 6. To create something new, you don't need to know about the past.

PAIR WORK Discuss the questions.

1. Do you agree with the writer? Why or why not?
2. Does your education system focus more on knowledge or discovery?
3. How would you change the education system?

Part 2

Part 1

Read the letter below.

Letter to My Teenage Self

Dear Teen Me,

I'm probably the last person you want to hear from—your future, older self. Spoiler alert: I get married and work an office job. I am not a best-selling novelist, although I am a writer. I have some things to tell you though that you really should hear. If I could do it all over again, I'd follow this advice.

- Don't worry about being popular. Belonging to a high school clique does not help you in any way. In fact, it makes you care about the wrong things. In a few years, you will have lost touch with all of them. Work hard at being a good friend and you will have strong friendships.
- Go ahead and have an active social life, but work hard in school too. If I could change my attitude toward school back then, I would do it in a minute. I goofed off too much. After high school, I ended up working in a restaurant for a few years before I went to college. It was hard, very hard, and I think I'd be further along in my career if I had taken school more seriously.
- Be nicer to your parents. One day, you will have children and they will give you a hard time. You will wish you had been kinder and more understanding.
- Marry a good guy. Don't worry about how popular he is, or how good-looking. Find someone who will treat you well and help you follow your dreams.

Patricia Bell

Movie Matters

Which recent release did you like the best?

I loved the new Spiderman. It was action-packed and the characters were developed well. The climax was a nail-biter. The actors were perfect in their roles. I really believed that Peter Parker had the abilities of a spider. The special effects were amazing. -Tony

I liked the re-release of the Titanic. Some people think it's corny, but I find it extremely moving. The love story between Jack and Rose is beautiful, and the ending is a real tear-jerker. And talk about special effects. I think the scenes of the ship capsizing are terrifying. -Roberta

I thought the latest Men in Black movie was hilarious. The acting was terrific. There's also a lot of action. I enjoy both science fiction and comedy, and so few movies do that well. There aren't very many science fiction movies that are also funny. -Cynthia

I'm one of those people who think the Titanic is corny. It is also depressing. Give me a funny movie any day. Unfortunately, I haven't seen any really funny movies this year. I thought the new Batman movie was fantastic. Not only does it bring the original story to a satisfying ending, but it also gives a hint of what could happen in a future film. -Greg

Read the article below.

What Your Taste in Music Says about You

We can learn a lot about people by looking at their stuff. Take music as an example. If you examine someone's CD collection or playlist, you might be able to make some guesses about the kind of person he or she is.

People who are high in openness tend to be creative, imaginative, and curious about the world around them. They are likely to have very eclectic music tastes—everything from world music to jazz to show tunes. On the other hand, people who are very practical, conscientious, and attentive to rules may listen to music more for its technical proficiency than anything else. They would have a more conventional collection of music, with popular performers who are the best in their field (e.g., the Beatles, or the New York Philharmonic).

Extroverts are often thrill-seekers. They love color, fast movement, and sensuality in all arts. Their music might have provocative lyrics, and it probably has a danceable beat. Introverts are at the other end of the spectrum. They tend to think form is more important than action, and prefer contemplative music such as Bach fugues, or the music of Debussy and Chopin. Their tastes are much more mellow than that of extroverts.

Some people use music to change or match their mood. People who are high energy may be drawn to music that is turbulent or inspirational. Their music has a very emotional component. Others may choose melancholy or romantic music for certain times, and rap or heavy metal as an outlet for their own anger or aggression.

Match the personality type to the music.

- | | |
|------------------------|-------------------------------|
| 1. high energy _____ | A. turbulent or inspirational |
| 2. extrovert _____ | B. contemplative and mellow |
| 3. introvert _____ | C. technically good |
| 4. conscientious _____ | D. very diverse |
| 5. open _____ | E. danceable and fast |

PAIR WORK Discuss the questions.

1. What surprises you about the descriptions above?
2. Which category do you think you fit in?
3. What kind of music do you like best?

Part 2

Write a paragraph describing your tastes in music. What is your personality like? How does your taste in music reflect your personality?

Part 3

Mod Maddie's
How to be a trendsetter

You know who I mean—the person who can look cool wearing almost anything. She seems to know what will be hip before anyone else, and she can make her old skirt from high school look like the latest fashion. Well you can be a trendsetter too if you follow these simple rules.

- 1. Repurpose.** Shop for clothes that can do more than one thing. Buy a tailored shirt that could go under a jacket or over a spaghetti strap dress. You could wrap that patterned scarf around your head, loop it around your neck, or tie it over one hip.
- 2. Think layers occasionally.** Sometimes you want a sleek silhouette and may opt for a fitted black dress, but don't count out the layered look. A short sweater over that dress can really change the look, or add a close-fitting tee underneath. Being fashionable means being flexible.
- 3. What's old can be new again.** What was out 20 years ago may very well be in next fall. Hang on to your well-made clothes, or shop in vintage clothing stores.
- 4. Don't follow fads—set trends.** What's the difference? A fad is a short-term event whereas a trend has the potential to affect fashion for some time to come. Leg warmers were a hit in the 1980s. They were knitted sleeves for legs! A fad, or are they coming back in style?

Write the number of the tip next to the example.

- _____ 1. Your mother had a beautiful tailored jacket that still looks great.
- _____ 2. You can wear a slouchy sweater over a knit dress.
- _____ 3. Polyester jumpsuits were popular in the 1970s.
- _____ 4. Use a single earring to hold scarf ends together.
- _____ 5. A warm shawl can become a skirt.

PAIR WORK Discuss the questions.

1. Do you agree with the writer's suggestions for being a trendsetter?
2. What are some examples of fads that did not become real trends?
3. What do you think makes a trendsetter?

Part 2

Write other tips for trendsetters, perhaps in a field other than fashion.

Part 3

Share your ideas with a classmate. Which of the tips do you agree on?

- B: No way! Is that for real?

- B: Absolutely!

Part 1

Read the gossip column below.

The Gossip Gab

Okay, kids, fasten your seatbelts. You're in for a thrilling ride. Here's the very latest tasty tidbits about the celebs you admire and envy.

Bobby Festus Brando, last season's winner of *Dancing with Famous Kids*, was spotted at Club Oo-la-la with Gabby Garbo, the runner-up. As you may recall, Bobby and Gabby appeared to hate each other as they duelled for the championship. They looked pretty cozy last night though. Hmm. What nickname could we give them? DoBo? BoGa? Gabfest?

And on another note, the paparazzi snapped photos of a very famous couple (or so they thought). At the premiere of Alex

Cruise's latest film, photographers thought they spied Sam Jenkins snuggling up to his ex, Marsha Perry. Mistake! The hundreds of pictures they took were of another couple, Michael and Heather Baxter. Of course, Mike and Heather are equally attractive, and at 83 and 81 are in very good shape, but really? Let's get those eyes checked, people.

Listen up: this could be a really juicy scandal. The most famous star of *Dusk Vampires*, Lu Reid, has checked into a hospital. Apparently, Lu has scheduled some cosmetic surgery. Where's the scandal you ask? The star is famous for talking negatively about cosmetic surgery!

Complete the sentences with information from the text.

1. Bobby and Gabby met on _____.
2. During the show, it looked like they _____.
3. The couple photographed by the paparazzi were _____.
4. Unlike Sam Jenkins and Marsha Perry, the couple is _____.
5. The movie star, Lu Reid, wants _____.

PAIR WORK Discuss the questions.

1. In what ways is this column similar to the news you see online or in magazines?
2. How much do you think you can trust such stories?
3. How do you decide if information is reliable?

Part 2

Choose one of these two perspectives, a serious journalist or a gossip columnist. Write a story about famous people from that point of view. Think about what language your writer would use in his or her report.

Part 3

Exchange your story with a classmate. From which perspective did your classmate write? How do you know?

Tom: Kate is really into fashion. In fact, last week she helped me pick out some new clothes. Want to see them?

Alex: Sure, why not? What's considered trendy right now?

Maria: Hm...well, the current trend is to keep things simple. Nothing over the top.

Maria: Wow! Looking pretty _____⁽¹⁵⁾, Tom! Kate has good taste. So, speaking of *your* Kate, are we ever going to meet her?

Alex: Yeah! We still have to meet her. We also have to meet your roommate, Maria.

Tom: It's just that she's been really busy at work lately. I'll introduce you to her sometime soon.

Maria: Yeah...soon. That's if we're still roommates.

Alex: Alright...I gotta go. Looks like I need to do some shopping!

[At the office...]

Alex: I heard you were looking for me?

Kate: Yes. Hey, Alex. Nice outfit.

Alex: Oh, you like it? Thanks!

Present tense for narration

The present tense is often used for narration in speaking. It's NOT often used for narration in writing. Narration in the present tense is common when describing movies or plots.

The main character **walks** in just after she accepts the proposal.

The movie **starts** out with a big fight scene.

The book **finishes** with the couple going on vacation to Paris.

Later on, the main character **finds** the thief.

Change the tense in Sophie's narration of a movie plot to the present tense. Cross out the underlined past tense verbs and write the present tense forms on the lines.

"When the movie started ¹ starts we saw ² the main character as a little girl. She lived ³ with her father in the country, and they were ⁴ very poor. They had ⁵ enough food to eat, and their clothes were ⁶ old and ragged. While she was ⁷ looking for food in the woods, the girl found ⁸ an abandoned dog. He was ⁹ very friendly, and the girl took ¹⁰ him home. The girl named ¹¹ the dog Zippy. She realized ¹² that Zippy was ¹³ very smart and she taught ¹⁴ him to do fantastic tricks. One day, a movie company came ¹⁵ to the area. They were ¹⁶ looking for locations in the countryside to film a movie. The movie director saw ¹⁷ Zippy doing tricks for the little girl. The director used ¹⁸ Zippy in the movie. Zippy became ¹⁹ a big movie star after that, and the little girl and her father were ²⁰ never hungry again!"

Negative questions for giving opinions

Negative questions give an opinion and invite a reaction. Negative questions commonly use the forms: *Don't you...*, *Shouldn't you...*, *Wouldn't it...*, and *Isn't it...*. The speaker often assumes the listener agrees.

Don't you think the movie started out kind of slow?
 Shouldn't you buy some new clothes?
 Wouldn't it be nice to see a really great movie tonight?
 Isn't it a nice day?

To avoid ambiguity when you answer a negative question, don't answer with a simple *yes* or *no*. Use short answers. In your answer, use the same auxiliary that appears in the question.

A: Shouldn't we stop buying gossip magazines?	B: Yes, we should .
A: Wouldn't it be great if long skirts were still trendy?	B: No, it wouldn't !
A: Didn't Brad and Antonia break up?	B: Yes, they did .
A: Aren't the Anderson twins interesting?	B: No, they aren't .

3. It would be nice to have some music for the party. _____?

5. Josh and Eva got married. _____?

Making the Best of Air Travel

If you're like me and find yourself flying all over the world, you know some of the tricks to making those long flights more comfortable and productive. For those of you less experienced in travel, I'm willing to share what I have learned.

- **Seat choice is important.** If you are taking a long flight and/or flying overnight, you want to avoid the middle seat at all costs. If you think you'll be able to sleep, choose a window seat. Once you're settled, you can lean against the wall and get some rest and no one will disturb you. However, some people have trouble sleeping or may feel a little claustrophobic in the window seat. Then the aisle seat is a better choice. You can get up and walk around which will help with your circulation.
- **The choice of row can also make a difference.** In the emergency exit row, you need to be prepared to aid in an evacuation. Some rows, such as those just before the bathrooms, don't recline. And some (bulkhead seating) don't have a place to put your carry-on bags on the floor. That means everything will go in the overhead bin.
- **When you board can affect your carry-on options.** Passengers boarding early have a greater chance of finding space in the overhead bins. Those who board late may check their bags at the gate. They probably won't have to pay a baggage fee, but they may not have their stuff with them on the flight.

Complete the statements with words or phrases from the text.

1. The worst seat to have is the _____.
2. If you want to sleep, the _____ is probably best for you.
3. The seats _____ sometimes don't recline.
4. People in the emergency exit row may have to _____.
5. It's good to board early if you want to _____.
6. If there's no space for your carry-on bags, you will have to _____ them.

Hi Matthew,

This trip has been great—except for yesterday! The subway workers decided to strike, so I had to take a taxi. That's what everyone else decided to do, too, so it took three hours instead of one, and by the time I got to the airport I had _____ (1) my plane. They put me on the next flight, which was fine, but then an hour later an airline employee came to me and said, "I hate to tell you this, but your flight has been _____ (2) because the pilot can't get out to the airport!" I would have e-mailed you during the five long hours I spent in the airport, but the Wi-Fi was _____ (3). Just my luck, right?

Anyway, I finally got to Istanbul last night, only to discover that one of my suitcases was _____ (4) and the other was _____ (5). Once I got everything worked out with the airline, I went to the car rental agency. While we were doing the paperwork, I realized my international driver's license had _____ (6) so I couldn't rent a car. All my plans for enjoying the countryside involved a car, so I had to change everything! I got on the Internet and _____ (7) all my reservations. Then I tried to find a hotel in the city. It was hard to find one with a _____ (8), but I finally did.

The good news is that it's a new day! My lost luggage arrived 20 minutes ago, and this hotel is really nice. It's in a great location and the people here are kind. Another good thing is that I haven't had anything _____ (9), even though everyone warned me that traveling overseas can be dangerous. Hopefully this is the turning point!

Talk to you when I get back,

Sandy

Common Travel Problems and Solutions

Traveling can be both fun and rewarding. But guard against these common problems that could turn a dream trip into a nightmare.

1. Stolen wallet, with ID and passport.

First call your credit card company and your bank to report stolen cards. You may also need to call the police and file a report. Also, contact the passport office immediately. Sometimes they can get you a new passport within 24 hours. The best way to prepare for a lost passport or other important documents is to photocopy them. Keep one copy with you and give another copy to someone you trust. If you think you have just misplaced something, take a deep breath and look for it. Sometimes it can be as much work to cancel cards or arrange for a new ID than to just spend a few minutes looking.

2. Missed or delayed flights

To avoid missing flights, make sure to

leave as early as possible. For international flights, you should try to get there three hours before the scheduled departure. If you think you will be late, call the airline to let them know so they don't give your seat to someone on stand-by. That will buy you a little time. If you do miss your flight, get in line to talk to the airline representative at the airport right away, or call the airline, and/or use your smart phone to rebook yourself. If your flight is delayed or canceled, you should try the same strategies.

3. Inappropriate dress or behavior

Airlines have dress codes. Make sure you know what they are. Some airlines will not allow you to travel if you are barefoot. Some refuse to board passengers with offensive language on their clothing. Other passengers have been kicked off flights for making jokes in bad taste, especially if they involve anything violent.

Write the number of the problem after the detail.

1. Read the airline dress codes. _____
2. Photocopy all important documents. _____
3. Call the airline to tell them you are late. _____
4. Call the credit card company. _____
5. Use your smart phone to rebook your flight. _____
6. Don't make bad jokes. _____

PAIR WORK Discuss the questions.

1. Which problem do you think is the most common?
2. Have you ever had one of these problems? What did you do?
3. What other common travel problems and possible solutions can you think of?

Part 2

Part 3

Share your ideas with a classmate. Can you think of any other solutions to the problem he or she described?

Bhutanese Customs

Many Bhutanese customs are influenced by religion (Buddhism and Bonism). If you go to Bhutan you may see many dogs running free in the streets. Dogs are treated very well by the Bhutanese because in their religion dogs are the highest life form besides people, and have the best chance of being reborn human. Many religious sites and objects are treated with reverence. For example, people inscribe stones with mantras or other religious sayings. These are called mani stones. Sometimes the mani stones are piled by the side of the road. Do not sit on mani stones and always pass with your right side nearest to them. You may also see prayer wheels. You should

always turn prayer wheels in a clockwise direction. Turning them the other way is considered disrespectful.

The royal family is very important. Never say anything disrespectful about them. Bowing is a traditional greeting. People bow differently depending on the status and authority of the other person. Visitors can show respect by nodding or bowing slightly. The people wear traditional dress. If you go to a temple, you should dress conservatively in pants or long skirts, and shirts with sleeves.

You should point with an open hand palm up, rather than with a finger. Never point with your feet, and don't cross your legs when sitting.

Mark the statements T (true) or F (false).

- _____ 2. Dogs are considered dirty.

Big Sports Blowouts

Horse Racing: In 1973, in the Belmont Stakes race, the horse Secretariat beat the rest of the field by 31 lengths—one of the most amazing finishes in a major race in modern times.

Golf: Tiger Woods won the 2000 U.S Open by 15 strokes. Usually a major golf tournament is won by only one or two strokes.

Rugby: In the 2003 World Cup of Rugby, The Australian Wallabies defeated Namibia by a score of 142-0.

Soccer: In 2002 in Madagascar, the team Stade Olympique de l'Emyrne had already lost the division title in the previous game after a referee awarded a penalty kick to the opposition. Its coach, Zaka Be, decided to stage a protest for its last match, against Adema. The coach asked the team to score as much as possible—against itself. The final score was 149-0, with Olympique scoring all the goals against itself.

Cricket: Sri Lanka beat Kenya in 2007 by 201 to 27 (174 more runs). Usually cricket matches are much closer. In fact, the next biggest blowout in cricket had 42 fewer runs.

Hockey: Hockey is not the most popular sport in South Korea or Thailand, so the result of a game in 1998 must have surprised everyone. South Korea beat Thailand 92 to zero.

Bringing Crime Down

At today's press conference, Mayor Fiona Boyle and Police Commissioner Miguel Hernandez revealed their new plan to bring crime down in the city this year. Crime has risen over the last three years with homicides increasing from 101 to 160 last year, and car break-ins tripling. Victims' rights organizations report an increase of 100% in the number of victims seeking assistance.

According to both Boyle and Hernandez, the city will now follow the "Broken Windows" strategy adopted by New York City in the 1980s and 1990s. Police in New York began to arrest criminals for even minor crimes such as failing to pay for the subway and spray-painting graffiti on subway walls. Under the "Broken Windows"

theory, keeping a city clean and well-ordered can cut down on more violent crime. In New York City, rates of both violent and unarmed crimes fell dramatically after the adoption of this strategy and stayed low for the next decades.

According to the Mayor, "What happened in New York was that cleaning up the physical environment discouraged other kinds of crime."

In addition, the police department will recruit and train a thousand new officers. Currently, officers can only investigate serious crimes. The expanded numbers will allow them to investigate lesser crimes as well. "We're confident that these changes will force criminals to follow the laws or move," said Hernandez.

Complete the sentences.

1. Fiona Boyle is the *mayor / police commissioner*.
2. Crime has been *falling / rising* over the last three years.
3. There were *three times / two times* as many victims asking for help.
4. The strategy that brought crime down in NY followed the "*Broken Subway / Windows*" theory.
5. NY police arrested people for committing minor crimes such as *armed robbery / graffiti*.

PAIR WORK Discuss the questions.

1. Do you think this theory works? Why or why not?
2. How does a better physical environment affect people in other ways?
3. What kind of crime do you worry the most about?

Part 2

Write about a crime that affected you or someone you know personally. What was the crime? What happened? Was the criminal arrested?

Part 3

Share your writing with a classmate. Discuss further ideas for keeping crime rates low.

Lesson 31: Vocabulary

Look at the words and the definitions below. Make a sentence using each word. In class, compare your answers with a partner.

WORD	DEFINITION	MY SENTENCE
advertisement (also called ad)	information that tries to make people buy something or do something	
banner ad	an ad on an Internet page	
brand	the name of a product that one company makes	
buying habits	the way that people usually shop	
consumer	a person who buys or uses something	
influence	the power to change what someone believes or does	
jingle	a short verse or song that often has repetition; a jingle often refers to the catchy phrase in an advertisement	
manipulate	to influence someone so that they do or think what you want	
pop-up ad	an ad that opens when you open an Internet page	
slogan	a short phrase that is easy to remember	

Part 1

Read the blog post below.

Advertising Strategies that Work

- **Slogan.** One of the most important things you can do is to create a slogan that is both attention grabbing and memorable. Spending time and money upfront to get your slogan right is well worth the effort.
- **Research.** One way to get the slogan right is to research your market. What are people interested in? What problem will your product solve? Who exactly are your customers? After you launch your advertising campaign, continue to do research on your product, the market, and the buying habits of the public.
- **Urgency.** Whenever possible, add a sense of urgency. You want your customers to feel that they need to get this product as soon as possible. You may want to offer a limited-time opportunity.
- **Information.** Give your customers as much information as you can about your product or service. Customers are more likely to trust an ad that looks more like an article than like a snazzy advertisement. Make your copy interesting and relevant. Say exactly what you mean in clear language.
- **Push and Pull.** Your campaign will be more effective if you can influence both the retailers and the consumers. Provide incentives to retailers to display and “push” your product. For example, you can offer attractive display boards. Then “pull” the customer in through coupons and mail-in rebate offers.

Write the category from the text (e.g., *slogan*) next to the example.

- _____ 1. Forty percent of consumers aged 18-49 drink bottled water.
- _____ 2. *Bright and Clean* contains no harsh chemicals.
- _____ 3. *Just Do It.*
- _____ 4. Buy one, get one free.
- _____ 5. 0% financing until Sept. 30.

PAIR WORK Discuss the questions.

1. What slogans do you think are especially good?
2. How do companies convey a sense of urgency?
3. What kind of advertising do you think is especially effective?

Part 2

Write a paragraph about a product that you think has been very successfully advertised. Discuss the strategies the company used.

Part 3

Exchange paragraphs with a partner. Do you agree with your partner's choice? Why or why not?

Part 1

Read the posts below.

City Priorities

The city council met last night and passed a new budget that prioritizes crime reduction and improvement projects in the city center area. While I agree that the city center could be much safer and more attractive, I think the budget focuses too heavily on that sector of the city. Other neighborhoods also suffer from crime, and they are also experiencing other major stresses that deserve attention. For example, in the southeast neighborhoods, roads really need repair. There are so many potholes that some streets are completely closed. The budget needs to address the concerns of all neighborhoods and all citizens, not just the city center. -*Joseph*

I agree. As I see it, the city center needs attention but so do other areas of our community. The northwest section of the city has terrible schools and not enough affordable housing. This has led to severe overcrowding in some apartment complexes with a predictable decline in physical condition. Buildings, parking lots, and sidewalks need repair. No wonder crime has increased. -*Safiya*

It seems to me that the current budget focuses too much on addressing problems that exist and not enough on preventing future problems. I believe we need to increase not only funding for schools, but increase the number of schools. Students do better in smaller classes. We need to focus our efforts on creating an informed and responsible next generation. Why don't we increase the budget for parks and recreation programs as well? Young people will be more likely to stay out of trouble if they are involved in healthy activities. -*Thien*

Write J (Joseph), S (Safiya), or T (Thien) next to each opinion.

- _____ increase the number of schools
- _____ increase affordable housing
- _____ repair parking lots and sidewalks
- _____ repair potholes
- _____ provide more money to parks and recreation programs
- _____ reduce overcrowding in housing complexes

PAIR WORK Discuss the questions.

1. Whose argument do you think is the most persuasive?
2. Which problem do you think is the most serious in your neighborhood?

Part 2

Write a paragraph expressing your opinion on what your city should spend money on.

Part 3

Share your ideas with a group. Whose opinions are similar?
